

myCare_{HC}: Your all-in-one healthcare platform

HealthComp is thrilled to announce the upcoming launch of myCare, your new benefits platform designed to enhance your healthcare journey. Stay tuned for additional information in the upcoming months. Once the website goes live, we'll provide you with all the necessary details for registration and app download.

What is myCare_{HC}?

We created myCare to make managing your healthcare a breeze. Whether you are on the website or mobile app, myCare offers a unified entry to all of your healthcare needs.

myCare Admin Console

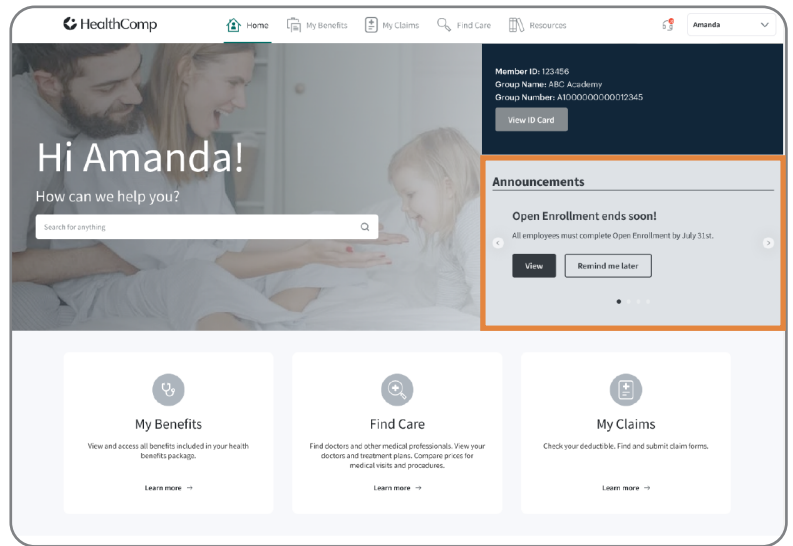

myCare Member Portal

myCare Member Portal

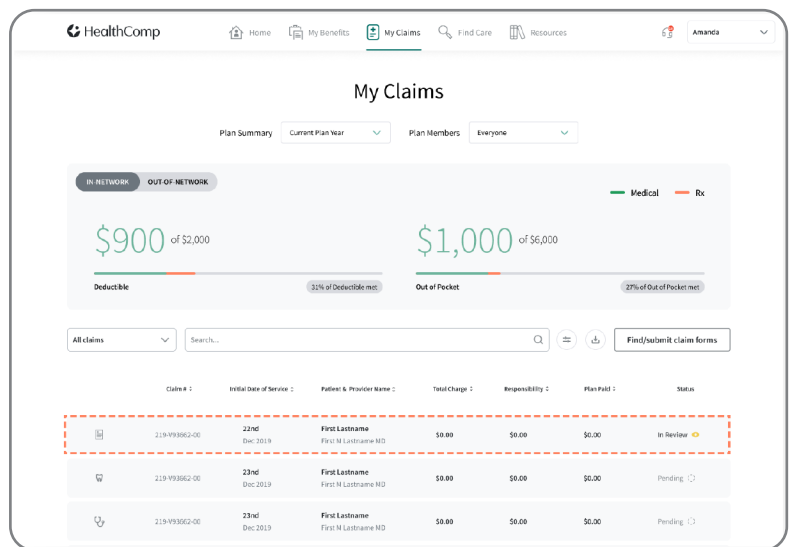

Stay informed:

Access essential information and announcements at the forefront of your home page. You may also receive notifications about programs that match your unique needs.

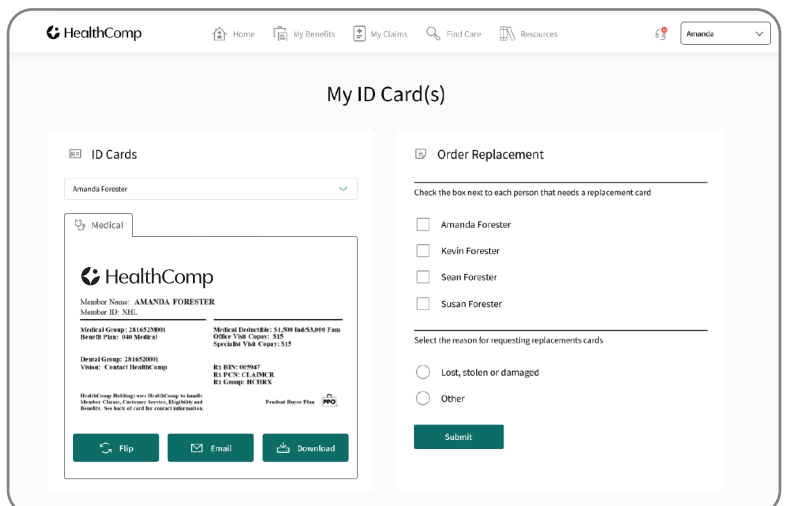

Track your claims:

Keep yourself informed about your claims' progress with myCare. On the My Claims page, you can monitor the status of your claims with ease.

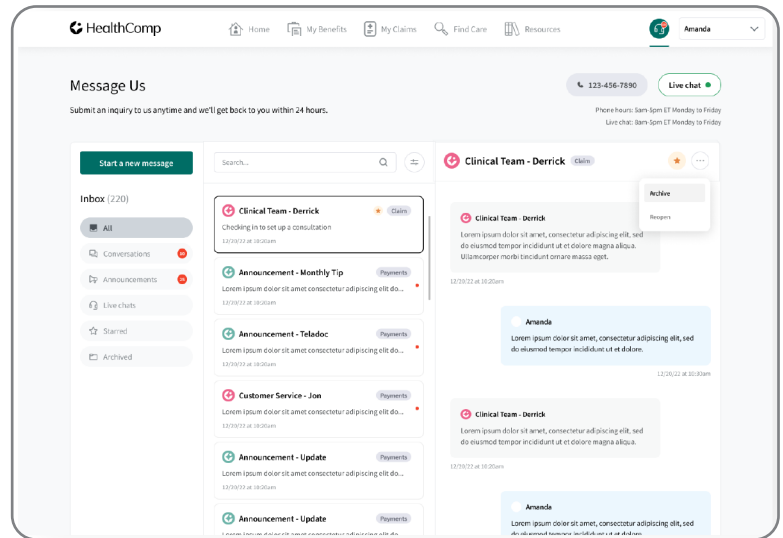

Your digital ID at your fingertips:

We have made accessing your digital ID card easier than ever, ensuring you have it whenever you need.

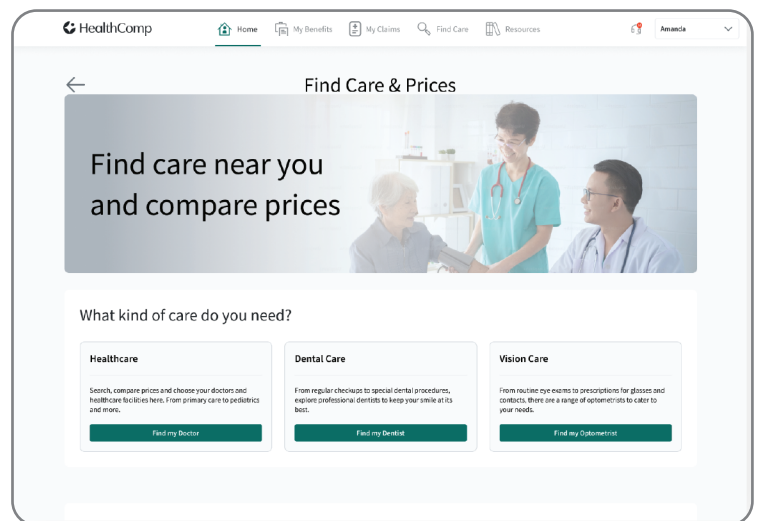

Instant communication:

Connect with our member service team through messaging or live chat. They are available to address any queries you may have about your health plan. Plus, you can easily access your important conversations by starring them.

Finding care made simple:

Search for providers and compare medical costs, making it even simpler to prioritize your healthcare.

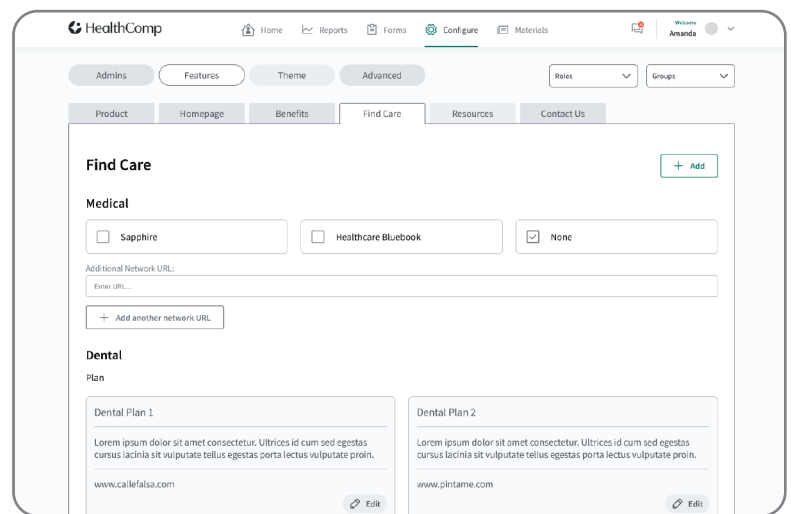

myCare Admin Console

We have created tools in the admin console that make it super simple to personalize and modify your portal. We provide you with the steps to customize the portal as you see fit, but it's entirely your choice whether or not to utilize these features. No need to worry; if you choose not to use these features the portal will work perfectly fine in its default state.

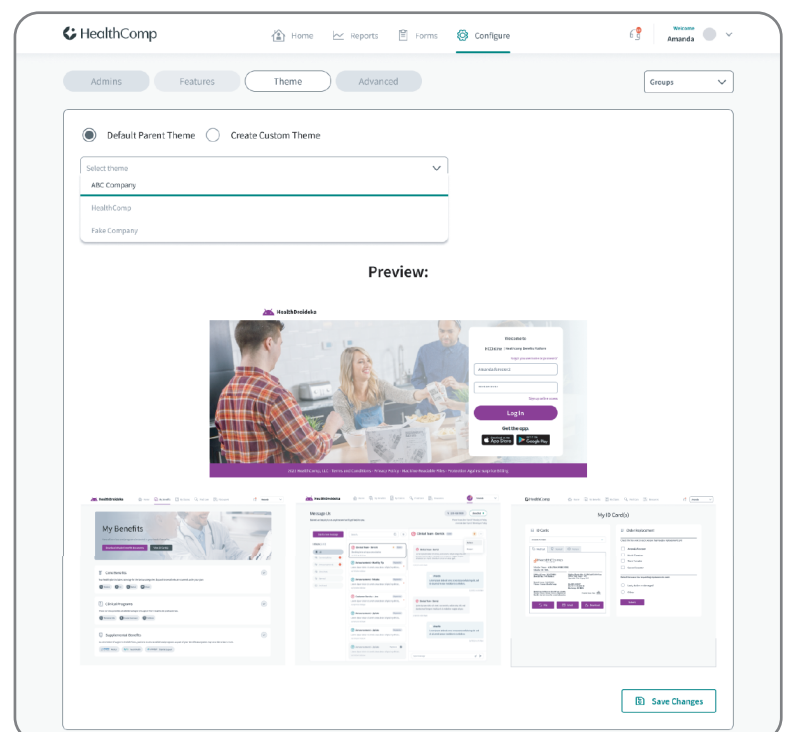

Provider links:

You can add direct links to your dental and vision provider finder websites.

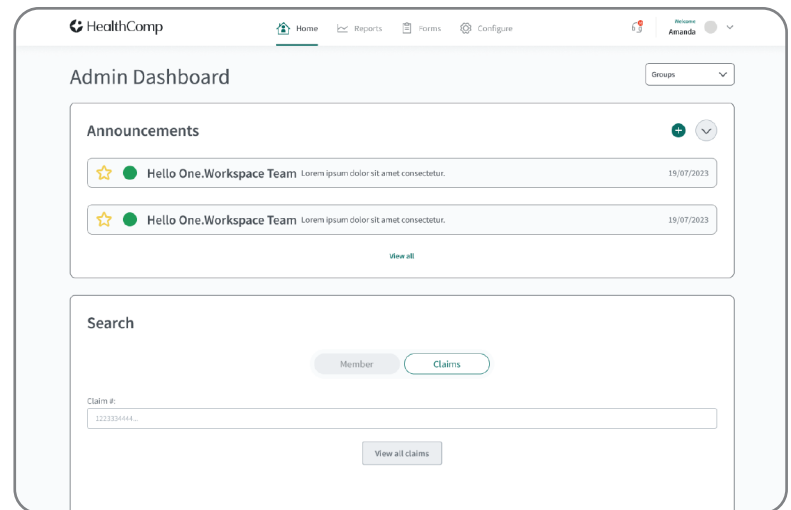

Customizable theme & features:

Personalize your company's member portal by including its logo and colors.

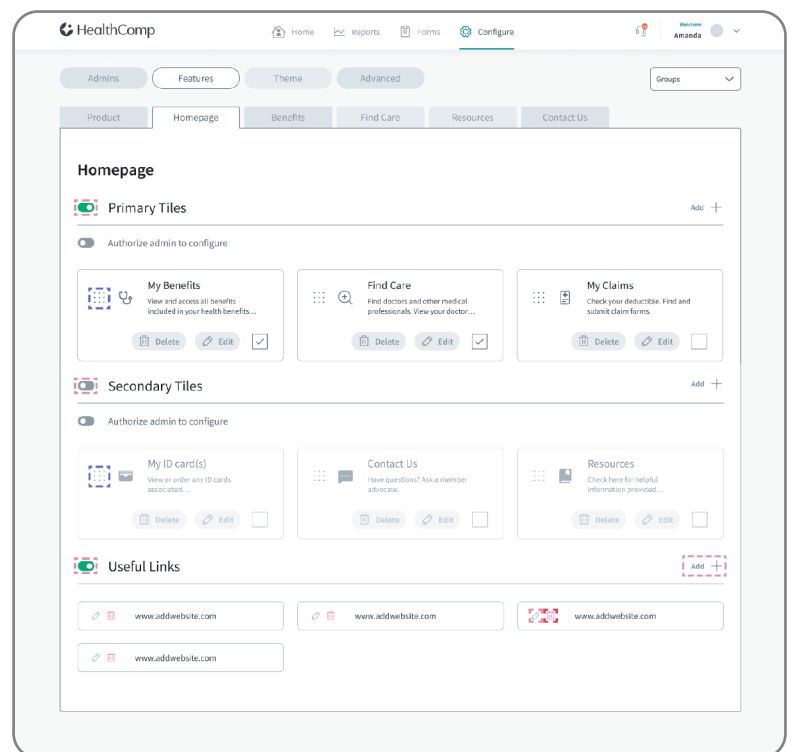

Targeted announcements:

Create specialized announcements for all employees or specific demographic groups.

Edit sections:

Take full advantage of sections in your portal by adding and editing displayed items. For example, update the "useful links" section to showcase relevant resources for your employees.

Helpful resources:

Add and edit forms and resources that align with your employees' needs.
